Keychains: Automatic process to keep track of your passwords. You will find this in the Utilities Folder. If this ever becomes corrupt it may be impossible to fix. That is really a good thing. If it could be fixed then the passwords you use would not be very secure. Best way to get new keychains is to make a new user, then transfer your pictures and documents to the new user. Set up your mail and internet. It is rare that anything will happen to the keychain but could happen.

Slideshows and Contact Sheets of your pics using Preview. Preview is a really broad program that lets you see many different formats of documents.

1. select a group of pictures
2. open with preview (not photoshop or express).
3. select slideshow or hold down – option, command, Y
4. click on contact sheet
5. take picture of contact sheet hold down – shift, command, 3
b. do not use print from the menu bar!
6. close slideshow – escape twice
7. open new picture on desktop and print.

www.northernbytes.org is up and running! Need your ideas of what needs to be on the site. This is your group make it the best.
